Empowering knowledge

Knowledge thrives when people, ideas, and technology come together. In this edition of Empowering Knowledge, we spotlight the innovations transforming how communities learn, collaborate, and engage, from AI-enabled tools and smarter digital processes to the hybrid solutions expanding access to education and scientific exchange. Alongside updates from recent and upcoming events, you'll discover the people and initiatives helping shape the future of knowledge sharing.

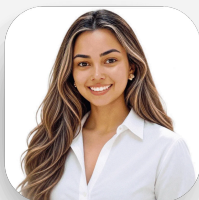

A new chapter for Kenes Group is live!

We're excited to launch our
newly redesigned website

Kenes News

Introducing the Kenes Ambassadors

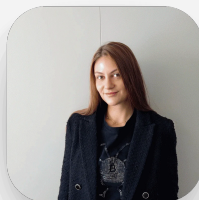

Behind every event, partnership, and milestone are the people who make it happen. The Kenes Ambassadors initiative empowers employees from across the organisation to share their experiences, insights, and expertise, helping showcase the work, culture, and impact of Kenes through authentic personal stories. By giving colleagues the tools and confidence to become advocates for their profession and community, the programme strengthens our collective voice while celebrating the people behind our success.

Breakthrough Science and Global Collaboration Define PTCOG 64 in Deauville

PTCOG 64 brought a record 1,364 participants from 47 countries to Deauville, France, for a week of scientific exchange, innovation, and collaboration in particle therapy. Under the theme "Waves of Innovation: Advancing Particle Therapy Together," the conference showcased the latest advances in proton and carbon ion therapy, highlighted landmark clinical research, and provided valuable opportunities for networking across the global community. From cutting-edge scientific sessions to a visit to the pioneering CYCLHAD facility, PTCOG 64 reinforced its role as a leading platform for advancing cancer treatment and shaping the future of particle therapy.

WCP 26: Advancing Global Mental Health

This September, the 26th World Congress of Psychiatry (WCP 2026) will bring together mental health professionals, researchers, clinicians, and policymakers from around the world in Stockholm, Sweden. Under the theme “*Guided by Compassion, Grounded in Science: Psychiatry for Our Time*,” the congress will explore the latest developments in global mental health, psychiatric education, digital mental health, and the future of psychiatric practice.

MNF 2026: Addressing Nutrition in a Changing World

This September, global nutrition experts, researchers, policymakers, and practitioners will gather in Accra, Ghana, and online for the Micronutrient Forum 7th Global Conference (MNF 2026). Under the theme “Nutrition at the Frontiers of a Changing Environment,” the conference will explore how science, innovation, and collaboration can help address some of the most pressing nutrition challenges of our time, from climate change and food systems to health equity and sustainable development.

How Kenes Is Enhancing the Event Experience Through Technology

Technology is changing the way people experience events, making participation smoother, more accessible, and more connected than ever before. At Kenes, innovation is focused on solving real challenges. From AI-powered tools like Abstract Assistant and Session Summaries to digital solutions such as facial recognition badge printing, e-tickets, and the Kenes Connect networking platform, each innovation is designed to help delegates spend less time managing logistics and more time learning, collaborating, and advancing their field.
